ENSURE EVERY STUDENT ENTERS COLLEGE WITH AN INFORMED MAJOR & A SKILLS-BASED EDUCATION PLAN

The *Get Focused...Stay Focused!*™ Initiative, modeled after the Freshman Transition Initiative of the George Washington University, *backward maps* critical knowledge and skills students need for success in today's workforce. Visit www.getfocusedstayfocused.org to learn more about this initiative.

Join us for this FREE professional development training to hear about the *Get Focused...Stay Focused!*™ program from co-founder Dr. Diane Hollems and Rudy Ramirez, who recently retired after 24 years as the principal of Indio High School. You'll leave with an understanding of how you can provide every student with the information and experiences needed to develop college and career readiness skills and to develop a 10-year career and education plan. Master scheduling will also be covered.

Breakfast and lunch provided.
