

Dear WG 4 Members and College Single Points of Contacts:

We are pleased to provide you with access to your individual college's data collected on the 3 surveys and WBL inventory. Attached please find a one-page document that provides two things:

1. A summary of the purpose and brief description of the surveys and inventory you all supported us in conducting in late 2018
2. Links to each college's individual survey results offered in multiple formats:
  - Survey Monkey online view
  - PDF view of results (located in a Box folder for college level staff to download and keep locally)
  - Excel raw data (located in a Box folder for use by college staff wishing to download and conduct their own analysis of the data)

The WestEd team is available to support the colleges as you consider how these data will be used in future planning meetings, in your upcoming Communities of Practice (CoPs), and for sharing more widely to interested stakeholders at your college.
